

Pediatrics South is current looking to hire a pediatrician for full-time or part-time work. We are a long-standing independent pediatric practice with two offices in the southern suburbs of Pittsburgh. We care for a diverse group of patients, accepting all insurance plans. We offer comprehensive pediatric within a Medical Home model, including our Behavioral Health team offering psychiatric care. Our pediatricians work entirely in an out-patient clinic taking weeknight phone call once every two weeks and weekend call once every five weeks.
